One of our 2016 objectives here at Three Dog was to educate Printers, Mail Shops and Agencies on ways to increase their revenue and profits by understanding how they can save their clients' money on postage and logistics. Adding new revenue streams and increasing cross selling opportunities is always smart business. In 2016 we taught over 45 sales, customer service, and mail-shop staff within many of our clients own conference rooms. Schedule your training time for 2017.

FINISHING SERVICES

From hand-tabbing 500,000 books, to strapping 3 million bundles of flats, to kitting toiletries for the armed forces our scalable workforce and large warehouse facility offers our clients a perfect solution. Quality procedures and planned scheduling allows Three Dog to meet our client's deadlines and exceed expectations every time and within budget.

FULFILLMENT SERVICES

2016 helped Three Dog fine-tune our fulfillment offerings to offer savings through parcel fulfillment strategies that are consistently ahead of the curve. The key is thinking outside of the box, and often finding a different box altogether.

PICK AND PACK

Pick and Pack is the perfect solution for small to medium size e-commerce companies outgrowing their current fulfillment facility. Three Dog launched Pick & Pack services that combine warehousing, e-commerce fulfillment and our knowledge of all things postal to reduce the overall cost to fulfill daily orders.

MANDATED DOCUMENT FULFILLMENT FOR INSURANCE & FINANCE INDUSTRY

Every year, the US Government mandates printed material be mailed. This is no cheap venture. Three Dog uses our secure state-of-the-art warehouse to assemble and ship, saving our clients the hassle and cost of meeting these requirements. If you print it, we can ship it.
